Changes and Additions

Changes and additions are as follows.

GFX100RF Owner's Manual: 250

Ver. 1.10

Connecting to a Smartphone

Pair the camera with the smartphone and connect via Bluetooth®.

- 1 Press **DISP/BACK** while shooting information is displayed.

 You can also proceed directly to Step 3 by holding the **DISP/BACK** button during playback.

- 2 Highlight **Bluetooth** and press **MENU/OK**.

- 3 Highlight **PAIRING** and press **MENU/OK**.

- 4 Launch the app on the smartphone and pair it with the camera to display a code on the smartphone and the camera. Confirm that both codes match to pair.

A smartphone icon and a white Bluetooth icon will appear in the camera display when a connection is established.

- Once the devices have been paired, the smartphone will automatically connect to the camera when the app is launched.
- Disabling Bluetooth when the camera is not connected to a smartphone reduces the drain on the battery.
